## Section 4: Legislatively Allowable Activities (LAAs)

Enter the funds expended on this activity as appropriate in the LAA table. This process will show how the funds used to carry out the grant activity relate to each of the activities that are allowed under the law.

**How should I distribute the spending among the LAAs?**

Instead of grouping expenditures by the standard budgetary line items this step asks you to think of activity expenses in a different way. We want you to group the expenditures according to the intent of the legislation. The specific activities expressed in the legislation should serve as the framework for the distribution of activity expenses—do your best to adopt your specific expenses with existing LAAs, but if none adequately capture your activity, you may add a category at the bottom of the table in the "Other" category. Remember that we are trying to aggregate expenses across many projects, so adhering to the LAAs to the greatest extent possible assists our program analysis.

The system will total the numbers you enter into each LAA category and display it at the bottom of the page.
